

**René Estermann**  
**CEO myclimate - The Climate Protection Partnership**

René Estermann is CEO of myclimate, an ETH-spinoff, Swiss based, internationally operating non-for-profit foundation for carbon management solutions. Internationally recognised, myclimate is a leading premium provider of high quality carbon-offset-solutions in the carbon-market. myclimate's business-partnerships expanded fast to airlines as Lufthansa, Swiss, Virgin Atlantic, travel-agencies as Kuoni or TUI, car-industry enterprises like Seat or Hyundai and events like the World Economic Forum in Switzerland and China or new business as BlablaCars.

René, happy father of three girls, worked as an independent environmental consultant and managing director at Swiss compostforum or the inspection of Swiss biogas & composting plants for 17 years. In his own consulting office with his team, he worked for Swiss federal departments, cities, cantons, national and international corporate customers by planning, consulting, communicating in the topics of composting, municipal waste treatment, life cycle analysis and biopolymers.
